Limited Review Report on The Consolidated Interim Financial Statements

TO: THE BOARD OF DIRECTORS OF EZZ STEEL COMPANY (SAE)

Introduction

We have performed a limited review of the accompanying consolidated statement of financial position of **Ezz Steel Company (SAE)** as of September 30, 2023, and the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for the nine months then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these consolidated interim financial statements in accordance with Egyptian Accounting Standards. Our responsibility is to express a conclusion on these interim financial statements based on our limited review.

Scope Of Limited Review

We conducted our limited review in accordance with Egyptian Standard on Review Engagements no. 2410, 'Limited Review of Interim Financial Statements Performed by the Independent Auditor of the Entity.' A limited review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters in the company and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these consolidated interim financial statements.

Conclusion

Based on our limited review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements do not present fairly, in all material respects, the consolidated financial position of the Company as of September 30, 2023, and of its consolidated financial performance and its consolidated cash flows for the nine months then ended in accordance with Egyptian Accounting Standards.

Emphasis Of Matters

Without qualifying our conclusion, we draw your attention to the following:

- 1- Note No. (1-3); the company's consolidated retained losses balance amounted to EGP 9.2 billion as of September 30, 2023, which is reflected company's consolidated interim statement of financial position, the total net shareholders' equity amounted to EGP 89 million at period end.
 - Al Ezz Flat Steel company (EFS) one of the company's subsidiaries generated a net profit of EGP 1.9 Billion for the nine months ended September 30, 2023, which decreased its total retained losses balance on September 30, 2023 to EGP 5.7 Billion.
 - Al Ezz Rolling Mills Company (ERM) another of the company's subsidiaries, generated a net loss of EGP 3.07 Billion for the nine months ended September 30, 2023 thus increasing its total retained losses balance on September 30, 2023 to EGP 9.8 Billion, which created deferred tax asset was recognized for it at that date with an amount of EGP 819 Million. The subsidiary's management has prepared a forecasted budget for the years 2021 to 2026 in which it forecasts improved financial results and the company being profitable profits. The company's business plan indicated that its operations will be supported financially by Al Ezz El Dekheila For Steel – Alexandria Company (another of the company's subsidiaries), which will enhance the company's operations and profits in future years while taking advantage of company's carried forward tax losses, based on the expected materialization of future assumptions used in the forecasted budget referred to above.

- 2- Note No. (35-3-1) in the notes to the consolidated interim financial statements, the tax claims received by Al Ezz El Dekheila For Steel – Alexandria (one of the company's subsidiaries) from the Egyptian Tax Authority (ETA) amounted to EGP 254 million according to the tax forms received on February 17, 2011, including late payment penalties related to the tax imposed on the Flat Steel project which had been previously exempted from tax during the years 2000 – 2004.

Management believe that the company has already been paid its correct tax dues during those years. It was agreed with the ETA's Internal Committee, the points of disagreement which are related to the cancellation of the State Resources Development Duty on the exempted movable tax base to be transferred to the Appeal Committee.

On June 12, 2010, the Appeal Committee issued a decision to eliminate the development fee on the exempted movable tax pool with the remaining tax basis exempt for the disputed years. According to the decision of the Internal Committee, the due tax amounts have been paid in full and the dispute has ended by agreement. Management and the company's legal advisor insist on the company's stance as per the issuance of the decision by the Appeal Committee in favor of the company. Accordingly, the company's tax position is legally undisputable, and the ETA cannot raise any claims for these years. The company filed a tax clearance lawsuit (Lawsuit No 405 For the Year 2011) and reached an agreement with the ETA to cancel the seizure imposed on the company resulting from the above-mentioned dispute.

The amounts paid amounted to EGP 254 million, which included an amount of EGP 35 million related to late payment penalties. The company believes that this procedure does not change the legal and tax position of the company, and it reserves its right to recover what has been paid. The court of appeal issued its verdict on November 10, 2022, in Lawsuit No. 268 For The Legal Year 1974 in favor of the company invalidating the Tax Forms No. 3 & 4 numbered 1380, 1381, 1382, & 1383 dated on February 17, 2011 for the years from 2000 till 2004, in addition not permitting the company to recover the claimed tax differences paid to the ETA due to filing the lawsuit prematurely; and the ETA is being notified for the implementation of the verdict.

- 3- Note No. 23; The company still holds treasury stocks which were acquired more than a year ago which is in violation of Article No. 48 of Law No. 159 For the Year 1981, the stocks amounted to EGP 10.4 million. The Article referred to above requires companies to either sell the treasury stocks to others or to reduce its capital by the same amount with a maximum of one year from the acquisition date.
- 4- Note No. 3-38; Al Ezz El Dekheila For Steel – Alexandria (one of the company's subsidiaries), was delisted from the Egyptian Stock Exchange on October 4, 2023. Its share capital amounted to EGP 1.9 billion distributed over 19 million shares with a par value of EGP 100 per share. On September 28, 2023 the company transferred EGP 8.7 billion to Hermes Securities Brokerage for the purchase of 6.9 million treasury stocks with a value of EGP 1,250 per stock. The transaction was finalized on October 2, 2023.

1. Company Background (Continued)**1.4 Issuance Of Consolidated Interim Financial Statements**

- These Consolidated Interim Financial Statements were approved by the company's BOD for issuance on December 7, 2023.

2. Basis For The Preparation Of The Consolidated Interim Financial Statements**2.1 Statement Of Compliance**

These Consolidated Interim Financial Statements have been prepared in accordance with Egyptian Accounting Standards and in light of Egyptian laws and regulations related to.

2.2 Basis Of Measurement

These Consolidated Interim Financial Statements are prepared on the historical cost convention, except for assets and liabilities which are measured at fair value.

During 2016, the Group's management adopted the special accounting treatment stated in annex (A) of the modified Egyptian Accounting Standard No. (13) "The Effects of Changes in Foreign Exchange Rates", the cost and accumulated depreciation of some fixed assets categories are modified using modification factors which are stated in the above-mentioned annex, as described in details in (Note no. 39-2).

2.3 Functional & Presentation Currency

These Consolidated Interim Financial Statements are presented in thousands of Egyptian pounds

2.4 Use Of Estimates & Judgments

The preparation of the Consolidated Interim Financial Statements in conformity with Egyptian Accounting Standards requires the management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses and the actual results may differ from these estimates.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the current circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Any differences to accounting estimates are recognized in the period in which the estimate is revised if these differences affect the period of the revision and future periods then these differences are recognized in the period of the revision and future periods.

And the following represents the most significant items in which assumption and professional judgment have been made:

- * Impairment loss on assets.
- * Recognition of deferred tax assets.
- * Contingencies, liabilities and Provisions.
- * Operational useful life of fixed assets.
- * Classification of lease contracts
- * Revenue recognition: Revenue is recognized in accordance with what is detailed in the applicable accounting policies.

2.5 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability will occur either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants would act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by making the asset's best and best use or selling it to another participant who will use the asset in its best and best use.

The Company uses valuation techniques that are considered appropriate in the circumstances and for which sufficient information is available to measure fair value, while maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities that are measured or disclosed in the separate financial statements at fair value are categorized into the categories of the fair value hierarchy. This is described, as follows, based on the lowest level input that is significant to the entire measurement over the fair value measurement as a whole:

- Level one: the quoted prices (unadjusted) in an active market for identical assets or liabilities.
- Level Two: Evaluation Methods The lowest level input that is considered significant for the entire measurement is directly or indirectly observable.
- Level Three: Evaluation Methods the lowest level input that is significant to the entire measurement is unobservable.

2. Basis For The Preparation Of The Consolidated Interim Financial Statements (Continued)**2.6 Basis Of Consolidation**

- The Consolidated Interim Financial Statements include assets, liabilities and result of operations of Ezz Steel Company (Holding Company) and all subsidiary companies which are controlled by the Holding Company, the Company controls an entity when it is exposed to, or has right to, variable returns from its involvement with the entity and has ability to affect those returns through its power over the investee.
- All inter-Company balances, transactions and unrealized profits were eliminated.
- Non-controlling interest in the net equity and in net earnings of subsidiaries are included in a separate item "non-controlling interest" in the Consolidated Interim Financial Statements and is calculated to be equivalent to their share in the carrying amount of the subsidiaries net assets at the date of the Consolidated Interim Financial Statements. Non-controlling share in profits and losses of the subsidiary companies are included in a separate line item in the Consolidated Interim statement of income.
- The provided profit and losses from acquisition or selling shares from non-controlling interest without changing of the holding Company's control, it's directly stated in the shareholders' equity.

36. Financial Instruments & Risk Management**36.1 Financial instruments**

The Company's financial instruments are represented in cash and cash equivalents; trade receivables, debtors, investments, trade payables, notes payable, creditors, loans and bank credit facilities, and finance lease liabilities, book value of these financial instruments does not differ significantly from its fair value at the financial position date.

36.2 Interest Rate Risk

The interest risk is represented in the interest rates changes on the company's debts, represented in loans (before deducting issuance cost) and credit facilities, finance lease liabilities which amounted to EGP 64 888 623 K as of September 30, 2023 (EGP 33 830 765 K as of December 31, 2022). Financing interest and expenses related to these balances amounted to EGP 4 232 416 K during the current period (EGP 2 497 395 K during the same period of the previous year). Restricted time deposits and current accounts amounted to LE 4 639 057 K as of September 30, 2023 (EGP 1 164 324 EGP as of December 31, 2022), interest income related to these time deposits and current accounts amounted to EGP 1 641 327 K during the current period (EGP 209 652K during the same period of the previous year).

The company works on getting the best terms available in the market regarding the credit facilities to mitigate this risk, also the company reviews the prevailing interest rates in the market periodically that reduces the interest rate risk.

36.3 Credit Risk

The carrying amount of financial assets represents the maximum credit risk exposure. The maximum exposure to credit risk at the financial position date is:

	<u>Note</u> <u>No.</u>	<u>30/9/2023</u> <u>EGP,000</u>	<u>31/12/2022</u> <u>EGP,000</u>
Trade & Notes Receivables	(17)	4 410 698	6 639 883
Debtors & Other Debit Balances	(18)	18 816 671	6 278 580
Suppliers - Advance Payments		1 558 856	581 266
Investments In Treasury Bills		855 235	518 189
Cash & Cash Equivalents	(20)	28 514 272	13 160 585

36.4 Foreign Currency Risk

Foreign currency risk is represented by the change in foreign exchange rates, which affects payments and receipts in foreign currencies, as well as the translation of assets and liabilities of a monetary nature in foreign currencies. The net value of obligations of a monetary nature in foreign currencies at the date of the financial position amounted to the equivalent of EGP 50.648 Billion.

Due to the current economic conditions, the company's management faces market risks represented by the difficulty of procuring cash in foreign currencies at the official declared prices, as a result of the shortage in the supply of cash in foreign currencies in the banking markets. The company's management, within the framework of implementing exceptional policies to manage market and operational risks, has resorted to managing some of its cash needs in foreign currencies at exceptional exchange rates. The exchange rate used in these transactions has been used as the best estimate of the prevailing rate in translating the net value of obligations of a monetary nature in foreign currencies. At the date of the financial position,

The following is the value of the difference in the translation of net liabilities between the applied price and the prices announced in the banking markets:

Foreign Currency	(Deficit)/Surplus as of financial position date <u>In Thousands</u>	<u>equivalent to Egyptian pound as of</u> <u>financial position date</u>	
		<u>According to bank</u>	<u>According to used</u>
		<u>rate</u> <u>EGP 000</u>	<u>rate</u> <u>EGP 000</u>
US Dollars	(1 087 302)	(33 543 268)	(48 928 592)
Euro	(37 025)	(1 207 656)	(1 761 573)
Sterling Pound	(404)	(15 180)	(22 143)
Japanese Yen	(141 523)	(29 328)	(42 779)

37. The Litigation Status**Workers Lawsuits Regarding Profits**

All lawsuits filed against the company by employees whose services have ended in the company have been resolved, and there is one lawsuit still in circulation regarding profit differences and previous years' bonuses.

38. Significant Events

38-1 The world was hardly recovering from the negative effects of the Corona virus, Covid 19, to enter into a wave of negative effects, which led to the slowdown of many major economies in the past period, which led to a combination of high global prices for basic commodities, supply chain disruptions and high shipping costs, in addition to fluctuations in the global economy. Financial markets in emerging countries, which led to inflationary pressures that affected the economies of many countries, including the economy of the Arab Republic of Egypt. The war between Russia and Ukraine led to a decrease in foreign exchange flows from tourism as well as from foreign direct investment, which resulted in a rise in prices in general.

This increase in international prices put additional pressure on the local currency (the Egyptian pound), which necessitated the intervention of the Central Bank to raise the interest rate on the Egyptian pound and move the exchange rate during the month of March 2022, and this move resulted in a decrease in the value of the Egyptian pound against the US dollar during that period. By more than (18%), which resulted in the companies that have large obligations balances in foreign currency, whether short-term or long-term, affected by large losses as a result of re-translation of these balances according to the exchange rate after moving it.

These losses were largely reflected in the results of the business of these companies in the income statement (profit or loss statement) and affected the financial performance of these companies.

38-2 On August 5, 2023, the Extraordinary General Assembly of Ezz El Dekhaila Steel Company—Alexandria, a subsidiary, voted to approve the resolution issued by the Board of Directors on July 10, 2023, and to authorise the company's voluntary delisting process from the EGX and acquire the shares of objectors and those who do not want to continue being shareholders after the delisting decision, The first delisting from the stock exchange done on September 20, 2023, and in accordance with the decision of the Securities Listing Committee held on October 4, 2023, the final delisting of the company's shares was approved, for the company's capital that amounted to LE 1,951,203,700 distributed over 19,512,037 shares with a nominal value of 100 LE/share from the Egyptian securities registration tables. The company submitted an optional purchase offer for shares at a value of 1,250 LE/share. and on September 27, 2023 the company paid amount of LE 8.689 Billion to Hermes Securities Brokerage Company under the account of purchasing treasury shares, amounting to 6,951,496 shares. The final settlement was completed on October 2, 2023.

39. Significant Accounting Policies For The Consolidated Interim Financial Statements

The following accounting policies have been applied consistently by the group's companies during all presented periods in these Consolidated Interim Financial Statements.

39.1 Foreign Currency Translation

The group maintains its accounts in Egyptian Pound. Transactions denominated in foreign currencies are translated at foreign exchange rate prevailing at the date of transactions. Monetary assets and liabilities denominated in foreign currencies at the financial position date are translated at the foreign exchange rates prevailing, at that date. Non-monetary items that are measured in terms of historical cost in foreign currencies are translated using the exchange rates at that date of the transaction. Foreign currency differences arising on the translation are recognized in the consolidated statement of income at the financial position date in consolidated statement of income.

The presentation of the financial statements of Al Ezz Flat steel (subsidiary company) to be in the Egyptian pound instead of the US dollar starting from the date 31/12/2020. This is due to the fact that the Egyptian pound has become the currency in which most of the company's sales are made as well as the financing needed for operations.

39.2 Fixed Assets & Depreciation

Fixed assets are stated at historical cost less accumulated depreciation and accumulated impairment losses. Depreciation - except rolling rings - is charged to the consolidated statement of income on straight-line basis over the estimated useful lives of assets. The management of the company regularly reconsiders the remaining useful lives of the fixed assets in order to determine whether they match the previously estimated useful lives and if there is a significant difference, the assets depreciation will be calculated in accordance with the remaining estimated useful life.

Leased fixed assets (The assets that ownership of the assets will be transferred to the lessee by the end of the lease contract) are recognized at cost in the beginning of lease contract, after the beginning of the lease contract the value of the leased fixed assets is determined at cost less the accumulated depreciation and the accumulated impairment loss and adjusted by any adjustments to the lease liability, the leased fixed assets is depreciated using straight line method over the estimated useful life of assets which are mentioned below.

During 2016, modified cost model was adopted by the group, which the cost and accumulated depreciation for some categories of fixed assets (Machinery and equipment, Vehicles, Furniture and office equipment, Tools and supplies) are modified using modification factors stated in annex (A) of EAS No. (13). The increase of net fixed assets which are qualified to modification, were recognized in other comprehensive income items and was presented as a separate item in equity under the name of "modification surplus of fixed assets". The realized portion of modification surplus of fixed assets is transferred to retained earnings or losses in case of disposal or abandonment of the asset which qualified for modification or usage (depreciation difference resulting from the adaption of the special accounting treatment).

39. Significant Accounting Policies For The Consolidated Interim Financial Statements (Continued)

39.2 Fixed Assets & Depreciation (Continued)

The estimated useful life for each type of assets is as follows:

Asset	<u>Estimated Useful Life</u> <u>Years</u>
Buildings	
– Buildings	25 – 50
– Other Buildings	8
Machinery & Equipment	
– Machinery And Equipment	5 – 25
– Rolling Rings (Machinery And Equipment)	According to actual use (ERM 5-6)
Vehicles	2 – 5
Furniture & Office Equipment	
– Furniture And Office Equipment	3 – 10
– Central Air Conditioning And Fixtures	8
Tools & Appliances	4 – 5
Improvements On Leased Buildings	The lower of lease term or assets' useful lives

Profits or losses resulting from fixed assets disposal are charged to the consolidated statement of income.

39.3 Cost Subsequent To Acquisition

The replacement cost of an asset component is recognized in the asset cost after the elimination of the cost of this component when such cost is incurred by the company and in case it is probable that future economic benefits shall inflow to the group as a result of the replacement of this component conditional on the ability to measure its cost with a high level of accuracy. However, the other costs are to be recognized in the consolidated statement of income as an expense when incurred.

39.4 Projects Under Construction

Projects under construction are recognized initially at cost. Cost includes all expenditures directly attributable to bringing the asset to a working condition for its intended use. Projects under construction are transferred to fixed assets at its cost when they are completed and are ready for their intended use.

39.5 Other Assets

- Other assets are licenses cost which are capable of generating future economic benefits.
- Other assets are stated at purchased cost including any expenses that are directly attributable to preparing the asset for its intended use, net of accumulated amortization and impairment losses.

39.6 Investments Available-For-Sale

Available-for-sale investments are initially measured at fair value and as of the Consolidated Interim Financial Statements date, the change in the fair value whether gain or loss is recognized directly in equity, except for impairment losses which are transferred to profit or loss. When an investment is derecognized, the cumulative gain or loss in equity is transferred to profit or loss.

The fair value for available-for-sale investments is identified based on the quoted price of the exchange market in an active market at the consolidated financial position date, except for investments which are not quoted in a stock exchange in an active market, in this case they are measured at cost net of impairment loss.

39.7 Investments In Treasury Bills

Investments in treasury bills are stated in the financial statements are initially measured at fair value and subsequently measured by depreciated cost, the difference between acquiring cost and the realizable value during the period is amortized from acquiring date to maturity date using actual interest rate.

39.8 Goodwill

Goodwill represents the excess of the acquisition cost over the fair value of the identifiable assets acquired at the date of acquisition. Goodwill is tested for impairment at consolidated financial position date. If events or changes in circumstances indicate that the goodwill might be impaired, impairment loss "If any" is charged to the consolidated statement of income for the period.

39.9 Inventory

Inventory is valued at cost or net realizable value whichever is lower. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. Cost is determined as follows:

- Raw materials: is valued at its cost up to bringing them to warehouses, and the outgoing is evaluated using the first in first out method.
- Spare parts, materials, and supplies are valued at cost up to bringing them to warehouses, and the outgoing is evaluated using the weighted average method.
- Work in process: according to the actual manufacturing cost which includes direct materials and labor cost in addition to share of indirect manufacturing cost incurred until the last production stage reached.
- Finished products: according to the actual manufacturing cost according to costs' statements.

39. Significant Accounting Policies For The Consolidated Interim Financial Statements (Continued)

39.10 Trade & Notes Receivables & Debtors

Trade and notes receivable and debtors are initially stated at their fair value and subsequently measured by depreciated cost using the effective interest rate and reduced by estimated impairment losses from its value.

39.11 Cash & Cash Equivalents

Cash and cash equivalents in the consolidated statement of cash flows comprise cash balances, banks current accounts, time deposits, market money fund bills and treasury bills which do not exceed three months and banks overdrafts that are repayable on demand and form an integral part of the Group's cash management preparing are included as a component of cash equivalents. The consolidated statement of cash flows is prepared and presented according to indirect method.

39.12 Trade & Notes Payable & Creditors

Trade and notes payable and creditors are primary stated at fair value and subsequently measured by depreciated cost using the actual interest rate.

39.13 Impairment Loss On Assets

A. Non-Derivative Financial Assets

Financial Instruments & Assets Arising From The Contract

The company recognizes loss allowances for expected credit losses for the following:

- financial assets measured at amortized cost;
- investments in debt instruments that are measured at fair value through other comprehensive income; And the Assets arising from the contract.

The company measures loss allowances at an amount equal to the lifetime ECL, except for the following, which are measured at an amount equal to the 12-month ECL:

- debt instruments that are identified as having low credit risk at the reporting date; And the
- Other debt instruments and bank balances in which the credit risk (ie the risk of default over the expected life of the financial instrument) has not increased significantly since the first recognition.

Provisions for losses of commercial customers and contract assets are always measured at an amount equal to the expected credit losses over their life.

- In determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportive information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and known credit assessment, including forward-looking information.

- The company assumes that the credit risk of the financial asset has increased significantly if it is more than 30 days past due.

The Company Considers A Financial Asset To Be In Default When:

It is unlikely that the borrower will pay its credit obligations to the group in full, without resorting to the company by measures such as liquidating the guarantee (if any); Or the financial asset is more than 90 days old.

The Company considers debt instruments to have low credit risk when their credit risk rating is equal to the globally understood definition of "investment grade".

Life expectancy credit losses are the expected credit losses that result from all possible failure events over the expected life of the financial instrument.

12-month ECL is the portion of ECL that results from failure events that are possible within a 12-month period after the reporting date (or a shorter period if the instrument has an expected life of less than 12 months). The maximum period considered when estimating Expected credit losses and the maximum contractual period in which the company is exposed to credit risk.

Measuring Expected Credit Losses

It is a probability-weighted estimate of credit losses. The present value of all cash shortfalls is measured (that is, the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the company expects to receive).

Expected credit losses are discounted at the financial asset's effective interest rate.

Credit Impaired Financial Assets

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt instruments measured at FVOCI are credit impaired. The financial asset is considered "credit impairment",

When one or more events that have a detrimental effect on the estimated future cash flows of the financial asset occur.

Evidence that financial assets are credit impaired includes observable data.

Significant financial difficulty for the lender or issuer and

Breach of contract such as failure or overdue for a period greater than 90 days and

- the restructuring of a loan or advance by the company on terms that the company will not take into account in one way or another; And the

It is possible that the borrower will enter bankruptcy or other financial reorganization; or

The disappearance of an active stock market due to financial difficulties.

Disclosure The Provision For Expected Credit Losses In The Statement Of Financial Position

The loss allowance for financial assets measured at amortized cost is deducted from the total carrying amount of the assets.

For securities in debt securities that are measured at fair value through other comprehensive income, the loss allowance is charged to the profit or loss and is recognized in other comprehensive income.

Execution of Debt

39. Significant Accounting Policies For The Consolidated Interim Financial Statements (Continued)**39.13 Impairment Loss On Assets (Continued)**

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering all or part of the financial asset. For individual clients, the Company has a policy of writing off the total gross book value when the financial asset is more than two years past due based on previous experience in recovering similar assets. For corporate clients, the Company makes an independent assessment of the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The company does not expect any significant refund of the amount written off. However, financial assets that have been written off may still be subject to liability activities in order to comply with the Company's procedures for recovering amounts due.

39.14 Interest-Bearing Borrowings

Interest-bearing borrowings are recognized initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortized cost on an effective interest basis with any difference between cost and redemption value being recognized in the consolidated statement of income.

Borrowing cost of financing fixed assets are capitalized to finance qualified fixed assets during the construction period till the asset is reachable for use from the economical view.

39.15 Provisions

Provisions are recognized when the Company has a legal or constructive obligation as a result of a past event and it is probable that a flow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. The provisions balances are reviewed on a going basis at the financial position date to disclose the best estimate on the current period.

39.16 Share Capital**Repurchase Of Share Capital**

Upon the repurchase of issued capital shares of the company (whether direct way or by using one of its subsidiaries), it is recognized with the amount paid in return for the repurchase, process which includes all direct costs and all costs related to repurchasing, as a reduction in owners' equity, and it shall be classified as treasury stock deducted from the total owners' equity side.

39.17 Revenues**a) Sales Revenue Recognition.**

- Revenue is recognized when the Company has transferred to the customer the significant risks and rewards of ownership of the goods and invoice issuance. And it is probable that the economic benefits associated with the transaction will flow to the Company, and determine the costs related to selling and returned goods in trusted way with the inability of the company's management to make any letter effects on selling goods with the possibility of trusted revenue measuring, In the case of export sales, the transfer of control is extended to the goods sold in accordance with the shipping conditions.

Egyptian Accounting Standard No. (48) - Revenue From Contracts With Trade Receivables

- Egyptian Accounting Standard No. (48) defines a comprehensive framework for determining the value and timing of revenue recognition, and this standard replaces the following Egyptian accounting standards (Egyptian Accounting Standard No. (11) "Revenue" and Egyptian Accounting Standard No. (8) "Construction Contracts").
- Revenue is recognized when the Trade Receivables is able to control the goods or services. Determining when to transfer control over a period of time or at a point in time requires a degree of personal judgment.
- The incremental costs of obtaining a contract with a Trade Receivables are recognized as an asset if the company expects to recover those costs.

b) Dividends

Dividends income is recognized in the consolidated income statement on the date where the company has the right to receive investees' dividends occurred after the date of acquisition.

c) Interest Income

Interest income is recognized in the profit or loss as it accrues using the effective interest rate method.

39.18 Lease Contracts**Finance Lease Contracts**

A leased asset is recognized in the company's assets, also recognize a liability that represents the present value of the unpaid finance lease installments in the company's liability.

Finance Lease Contracts (Sell And Lease Back)

If the entity (the lessee) transfers the asset to the other entity (the lessor) and leased back the asset, the entity must determine whether the asset is being accounted for sales transaction or not, in case of not being sales transaction the lessee must continue to recognize the transferred asset and must recognize a financial liability equal to the proceeds of the transfer.

Operating Lease Contracts

Leases are classified as operating leases. Payments in respect of operating leases are charged to statement of income as expenses payments in on a straight-line basis over the lease term. (Net of value of any lease discount incentive and rent-free periods).

39. Significant Accounting Policies For The Consolidated Interim Financial Statements (Continued)

39.19 Earnings Per Share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

39.20 Income Tax

Income tax on the profit or loss for the period comprises current income tax and deferred tax. Income tax is recognized in the consolidated income statement except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity. Current tax is the expected tax payable on the taxable income, using tax rates enacted or substantially enacted at consolidated financial position date.

Deferred tax is provided using the financial position liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the consolidated financial position date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized during the upcoming periods.

39.21 Grants Related To Assets

Grants related to fixed assets are recognized as deferred income and are recognized as income in accordance with the terms of the grant. Deferred income balance is presented in long-term liabilities after deduction of deferred income due during the period, which is shown under current liabilities.

39.22 Employee Benefits

The company contributes inside Egypt in Social Insurance under the Social Insurance Authority for the benefits of its personnel in pursuance to the Social Insurance Authority law No. 79 of 1975 and its amendments. These contributions recorded in the 'salaries and wages' accounts, in addition to end of service benefits as shown in note no.(10).

39.23 Financial Risk Management

The Group has exposure to the following risks from its use of financial instruments:

- * Credit risk
- * Liquidity risk
- * Market risk

This note presents information about the Group's exposure to each of the above risks, the Group objectives, policies and processes for measuring and managing risks, and the Group management of capital. Further quantitative disclosures are included throughout these Consolidated Interim Financial Statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Group risk management framework.

The Group risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

39.23.1 Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur financial loss.

This risk is mainly resulting from the Group's trade and other debtors.

- Trade Receivable & Other Debtors

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Group's customer base, including the default risk has less of an influence on credit risk.

Most of Group's revenue is represented in sales transaction with many customers with close values for each customer, hence, there is no concentration of credit risk on specific customers.

- Cash And Cash Equivalents

Credit risk relating to cash and cash equivalents - except cash on hand - and financial deposits arises from the risk that the counterparty becomes insolvent and accordingly is unable to return the deposited funds. To mitigate this risk, whenever possible, the Group conducts transactions and deposits funds with financial institutions with high investment grade.

39.23.2 Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group ensures that the sufficient cash on demand to meet expected operational expenses for a suitable period, including the service of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

39.23.3 Market Risk

Market risk is the risk that changes in market prices, such as foreign currency exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

- Currency Risk

The Group is exposed to currency risk on transactions that are denominated in a currency other than the respective functional currencies of the Group, primarily the U.S. Dollars (USD) and Euro. In respect of monetary assets and liabilities denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level through purchase or sale of the foreign currencies with current prices when that is necessary to face un-balanced short term.

- Interest Rate Risk

The Group is exposed to market risks as a result of changes in interest rates particularly in relation to borrowings. Borrowings issued at floating rates expose the Group to cash flow interest rate risk. Borrowings issued at fixed rates expose the Group to fair value interest rate risk.

The basic strategy of interest rate risk management is to balance the debt structure with an appropriate mix of fixed and floating interest rate borrowings based on the Group's perception of future interest rate movements.

- Other Market Prices Risk

This risk arises from changes in the price of available-for-sale investments held by the Group, the Group's management monitors the equity instruments in the investments' portfolio according to the market and objective valuation of the financial statements related to these shares. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the Board of Directors. The primary goal of the Group's investment strategy is to maximize investment returns and the management consults external advisors in this regard.

39.23.4 Capital Management

The Board of Directors' policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Boards of Directors monitors the return on capital, which the Group define

as net operating income divided by total shareholders' equity, the Board also monitors the level of dividends paid to shareholders. There were no changes in the Group's approach to capital management during the period. The Group is not subject to externally imposed capital requirements.
